

Bus Travel

Parents may organise bus transport to and from Isis District State High by contacting the Bus companies directly. For students who travel to school by bus special circumstances may arise where a bus company due to imminent flooding or notification by the police of an extended road closure following an accident, chooses to collect students early from school and get them safely home before they are trapped.

In preparation for these unusual circumstances, please discuss home destination arrangements with your student and contact the school if the school should know about these or other arrangements.

Parents / carers will be notified as soon as possible by either their student or the school should this situation arise.
